## Your Amazing Cells:

### The Secret For Keeping Them Alive And Well!

By Carol Keppler, B.S., Ed.

If Dr. Fritz Albert Popp is correct in his definition of “life” we’re in deep trouble. Dr. Popp who did scientific research in the area of quantum physics and nutrition, said the food we eat to live must add “light” (in the form of biophotons) to the human bio-energetic systems and DNA structure for repair and sustenance.

He went on to explain that it should be food that is “organic, unprocessed and free of contamination”. Since Dr. Popp lived before the age of irradiation and genetically modified organisms (GMOs), he probably was thinking molds and parasite contamination. Oh, but we have that under control with irradiation and GMOs; it’s just unfortunate these processes damage the biophotons of live foods making them incapable of energizing anything!

The result of “science playing God”, say the savvy physicians and scientists with whom we’ve spoken, is the eventuality of cell damage at best and death at the very worst by being fed **processed foods** from boxes, cans and jars, “**junk**” **foods**, that look and taste so good we can’t stop eating them, or “**fake**” **foods**, those that look “real” but are not. It may be that the plant’s natural biophotonic energy, through the process of irradiation, is made incapable of connecting with the mitochondrial tiny powerhouse in each of our 75 trillion cells.<sup>1</sup> This cellular powerhouse uses sun-derived energy not only to power the human system but for repair and regeneration.<sup>2</sup>

### Genetically Altered Food in Your Local Market

*Don't we assume that the fruits and vegetables we see at our local supermarkets are “live”?* The problem is that most of the produce is treated with irradiation to give it *longer shelf life so it won't sprout or rot.* The sad reality is that the human digestive system may also be incapable of breaking these down. In fact, cooking often is unable to break down the plant cell structure making your sweet potato or beautiful-to-look-at bunch of broccoli take much much much more cooking time to soften for eating. Have you noticed?

So let’s go back and look at the GMOs in your favorite supermarket. Sometimes referred to as genetically engineered or bio-tech foods and by some of us as “frankenfoods”, genetically altered foods have been available since the 1990s. The first experiments were with herbicide-tolerant soy beans and maize, canola and cottonseed oil as scientists began programming “novel” genetic traits into an organism’s genome to cause both new and useful traits.<sup>3</sup>

The FlavrSavr® tomato was the first commercially grown food crop adding a gene to make it resistant to rotting. The FDA approved its sale in 1992 on the basis that it was in fact a tomato, not constituting a health hazard and therefore did not need special labeling.

Consistently consumer research indicates that US consumers would prefer not to buy or consume genetically altered foods and are asking for labeling. However the FDA

### WE DID IT!

The first annual Arizona "Energy Medicine, Water and Intuition Conference" was an amazing success. Many thanks to all of you who participated and the volunteers who helped to make it happen. Highlights can be found at [EnergyMedicineFoundation.org/events](http://EnergyMedicineFoundation.org/events) and in the enclosed EMF Newsletter.

**FDA GAGS REAL INFO** on natural products! Dr. Rima Laibow is calling to action to vote for Congressman Ron Paul's **Health Freedom Protection Act (HR2117)** allowing supplements to carry scientifically justified health claims. More details at [HealthFreedomUSA.org/takeaction](http://HealthFreedomUSA.org/takeaction). **Please forward widely!**

**OPRAH AND "THE SECRET"**—we've watched it happen! Over the past several weeks Oprah's guests have been talking about the *law of attraction* and energy medicine. Now *Oprah's power* will help

spread the word even faster.

**ATLAS ALIGNMENT** is critical to a healthy body yet it's been difficult to find properly trained persons to do the alignment. We've searched and found the best of the best, also, one of our own, Mike Davis who can be reached at 602-614-1875. Also, Atlas Orthogonal chiropractors are trained to work with the atlas. You can locate them nationwide and in Canada; more info at MEMBERS ONLY!

**QUANTUMWATERS™ GOES TO CHINA**—We're in the negotiation stage of sending the **QuantumWaters™** formulas into China. This would include a number of the SinglesLine formulas as well as the amazing **FourStep™** System. Many thanks to one of our trained Energy Intuitives, Alan Ogden in Vancouver, Canada.

**FEEDBACK**—now for MEMBERS ONLY and still on an *unlimited basis*. A small monthly fee, for new members, of \$10.00 to cover not only feedback but a 50% discount on all our Educational

TeleSeminars and much more!  
*Ten reasons to sign up now on page 5!*

**INTUITION CLASSES ...** Want to know the secret for being more intuitive? The best candidates for learning this valuable technique are those who have gone through a cellular cleanse for *increased attunement!* **Intro to Practical Intuition Workshop** presentations this Fall by Carol. More information in the **QuantumWaters™** Newsletter (September 2007)

**AUTISM STUDY**—Doris Rapp, MD will be taking applications for children who have been diagnosed with this disorder. She will do interviews for her study on *natural ways to help these children attain wellness*. Dr. Rapp is being sponsored by Energy Medicine Foundation and will be using the **QuantumWaters™** formulas.

**"People who say that it cannot be done should not interrupt those who are doing it."**

*Chinese Proverb*

## Focus on **QuantumWaters™**

**MicroEnhancer™** continues to remain an "open formula". New frequencies added: more "chaotic electric" (48 "types" and "levels", now including seismic activity), and "Kundalini" electric (from "unprotected" Reiki, some cranial sacral and massage work, Network Chiropractic, Transcendental Meditation and *white light* meditation), frequencies for **depression/anxiety, visual and auditory acuity, hair pigmentation and radioactive isotopes for those who have lived near or downwind from nuclear plants/activities.**

**Buggz™**—it's that time of year so if you don't want to use toxic products on your pets—or yourself, you might want to try **Buggz™**. Also works on critters that attack plants.

**UltraCell™**—3 drops to a pint, quart or gallon of water spritzed on your skin while sunning prevents sunburn and promotes safe tanning.

**JustSkin™**—Summer can be hard on your skin so we suggest using this formula (10 half-droppers for 3 days, then 2 half droppers per day) plus *lots of extra water* to prevent dehydration.

**Reminder...** No matter how clean your cells are, without **sufficient water** for cell hydration or **time** for repair, *repairs can't happen*. One quart will hydrate now because of the addition of a super hydration factor to all the formulas. However, more water is definitely better and *because it's Summer, a must!*

## Paw Prints on the Heart

Crisis intervention for your pet *by Carol Keppler*

Mia's dog licked the back of a deadly desert toad. Luella's Siamese cat, after being in the woods surrounding her New England home, came in with puncture wounds in her back. And when we came home from the Center one day last month, we found Ruffles, our six year old *healthy schnauzer* lying unresponsive on the floor. All were in "crisis" but were able to make amazing recoveries with **QuantumWaters™ Emergency™** formula.

Ruffles actually had her eyes closed and was stiff. I had noticed at noon that day, before I left for the Center, that her back seemed arched and rear legs seemed stiff; that's when I should have started the **Emergency™**. That evening, we sat on the floor with Ruffles putting a half-dropper of **Emergency™** in her mouth every five minutes for an

hour after which we picked her up and put her in her bed. We marveled the next day when she was her frisky old self. Question: Would a veterinarian have been able to discover the problem in time to save her life???

(All these cases of poisoning were pets that had used the **QuantumWaters™** formulas; so in that case, **RegenerationDaily™** would also have worked—same dosage.

With *vehicular injury* or those caused by *chaotic electric*, **Emergency™** is the best first step because it has also been programmed with frequencies for *restoring vital signs (heartbeat, respiration, blood pressure, core temperature)*. And as you might guess, **Emergency™** should always be your first choice for humans in crisis.

*"Until one has loved an animal, a part of one's soul remains unawakened."*  
— Anonymous

### Tips to Save a Pet's Life (works for people too!)

- Be aware of changes in energy level, actions, movement, eating and sleeping patterns and "joy factor".
- Keep **Emergency™** on hand. Immediate use:  
1 half-dropper in mouth every 5 minutes for 1 hour.  
If needed 12 hours later, use 5 half-droppers in the mouth.

*"We cannot live only for ourselves. A thousand fibers connect us with our fellow man".*  
~ Herman Melville

## WELCOME, LINDA HINES!

Linda Hines has recently joined the staff of **QuantumWaters™** after relocating here from Asheville, North Carolina, where she was working

for the Western North Carolina AIDS Project. Linda holds a B.S Degree in Behavioral Science, and spent her early career working as a social worker within the criminal justice system with adult and juvenile offenders. She then transitioned to the private sector and worked in Human Resources Management in the electronics industry for many years.

Linda's interest in wholistic health

gradually evolved into a pursuit of training in hands-on energy work and massage therapy. She then went on to work in many capacities in the spa industry, including helping to establish an ayurvedic treatment center. She has a vision for an incredible spa on the big campus in 2010, and is anxious to help manifest a "mini spa" when we move to the Ranch.

Currently she is involved with the "Women of Vision" project, and helping design our new "spa package". Her latest project is the clinical trials for **QuantumWaters™** formulas for AIDS. She has already made the initial contacts and is awaiting replies.

In the meantime, she is still in the process of "settling in" and exploring her new city.

## Teamwork

**QuantumWaters™** is working in tandem with Energy Medicine Foundation to provide the products that are being donated by the foundation's outreach program.

Plans are being readied to move **QuantumWaters™ Technology** to the ranch site as soon as the funding is available. The research facility will also be housed on this 3 acre site along with office space for wellness therapists, and classes.

For more information on Energy Medicine Foundation visit [EnergyMedicineFoundation.org](http://EnergyMedicineFoundation.org).

*"One person with a belief is equal to a force of ninety-nine who have only interest."* ~ Fortune cookie

## So Many Great Books . . . so little time

### "Pay it Forward"

Pay it forward...is it possible for one idea to change the world? In 2000, you may have seen it as a movie and if you did you probably haven't forgotten it. "Pay it Forward" based on the novel by the same name by Catherine Ryan Hyde has quietly worked its way into the hearts of mainstream America.

Just imagine. You do a favor that really helps someone *and tell him not to pay it back, but to pay it forward to three other people who, in turn each pay it forward to three more*—and on and on into a global outpouring of kindness and decency. Impossible? That's a word junior high school student Trevor

McKinney finds it difficult to accept.

Haley Joel Osment plays Trevor, who starts a chain reaction of goodness for his social studies project in this bittersweet and uplifting tale directed by Mimi Leder (*Deep Impact*) featuring Kevin Spacey and Helen Hunt.

How much impact can one heartfelt idea have? Do yourself a favor and find out: *check out Pay It Forward on VHS or DVD. You'll want to gather your family together to watch this one!*

(NOTE: Some undesirable language)

### QuantumWaters™

#### "Pay it Forward" Project July 2007

Look for our special message in July. We have a plan to help more people with unresolved health challenges.

We'll be in touch and tell you how you can help us "pay it forward".

*You must give some time to your fellow men. Even if it's a little thing, do something for others—something for which you get no pay but the privilege of doing it.*

~ Albert Schweitzer

## We Get Letters . . . and faxes . . . and e-mails . . .

*Thanks for sharing your personal experiences with us. Your words give hope to many.*

I was 48 years old and very active, always athletic and always competitive. I lived on Mahuang, Ephedra and caffeine and they didn't work for me any longer. I was exhausted, had aches and pains for the first time in my life and was rather "snarly".

My symptoms included: my toe nails coming up, hives, a torn meniscus in the knee, beginning of periodontal disease even though I go to the dentist 4 times a year for maintenance, and executive anxiety and the list goes on and on (I come from a background of diabetes on both sides, my mother died of breast cancer 2 weeks after her 47th birthday, my grandmother of cancer of the blood at 69 and my grandfather of a heart attack at 54.).

At the completion of the cleanse, my knee repaired, my eyes improved 50% and my eye doctor has moved my prescription back 50% at 55 years old. Can you believe it? I have no aches and pains. I operate on my own natural energy, I ball-room dance 3 hours a week at night; I have younger men in their 30's calling to me asking me on dates and I am old enough to be their mother!!! I sleep beautifully, my skin is radiant, my hair, which was permed for 20 years, came back from brittle quickly, my nails are strong for the first time, my menopause symptoms are negligible. I am very active again and my blood is alkaline. I made my body my temple and it is paying me back with honoring what I want to do!

We don't have to age and disintegrate slowly we can move through time fully vital and virile and not have to slow down and not expect to spend our last days in a hospital bed tied to tubes and drugged up so that we aren't even coherent! *Living naturally has a lot of perks in my book!* Having my knee heal so I could run again was huge and these drops repaired burns, scars, scrapes, rattlesnake bites, a dog and a parrot bites and of course environmental toxins like jet fuel.

I no longer worry about diseases that others simply expect to get. I now honor my body and listen to it when something doesn't set well.

Sandy B.  
Scottsdale, Arizona

believes the consumer would make the “wrong choices” if given the GMO labeling and refuse to buy. The FDA therefore contends the labels would be “false” and misleading information. *R-I-G-H-T...*

They maintain that genetically engineered foods have the same sensory characteristics as “natural” foods and therefore they have granted them a certificate of equivalency. No safety testing is required by the FDA, which depends solely on the company marketing the GM food.

Do we know all the foods that have been altered and that we may be eating now? If you are using your 99% intuited sense you have a fighting chance of finding real, live foods (i.e. packed with bioenergetic frequencies). No labeling will be forthcoming in the near future to help us make the decisions that are destined to affect our family's health and longevity—our very lives.

“*Somebody has to do something*” and Dr. Rima Laibow, MD of Natural Solutions Foundations is a powerful “somebody”. Dr. Laibow stays on top of our health freedom issues and **we can help by donating to her foundation at [naturalsolution@optonline.net](mailto:naturalsolution@optonline.net)**.

## MEMBERS ONLY

The MEMBERS ONLY site has grown 400% since it appeared in 2006 and here are 10 reasons why...

1. *NEW! 50% Discount on all TeleSeminar registrations!*
2. Carol Keppler's "Intuited Products Check" updated quarterly for those who aren't yet using their own intuition
3. Your newsletter automatically e-mailed to you quarterly
4. A monthly E-news update packed with Carol's take on what's happening on The Planet along with special products and service offerings *only for you*
5. E-Alerts when there are *things you need to know NOW*
6. Know the best stores for groceries and best restaurants for natural eating
7. Great discounts for dental, chiropractic, vision and more
8. Your blood test *at our cost* \$79 otherwise \$129. Doctors normally charge \$200!
9. Sign up for 1¢ per minute phone calls in the U.S. and 2¢ to most foreign countries
10. *And much, more to come...—let us know your needs.*

Notice: Beginning June 1, 2007

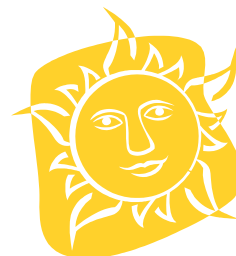

*Feedback available only to our Members*

**Quantum Waters™ Technology**

Energy medicine is an emerging science and intuition is the rediscovered wisdom of our day. If you are ready to go on a personal quest for total well-being, far beyond the accepted norm, then you are ready to experience vibrational health technology.

Science, medicine and philosophy are converging to confirm the practical aspects of esoteric knowledge; **Quantum Waters™ Technology** has been working for more than two decades to evolve practical ways to make energy medicine easily available to everyone.

As an energy intuitive, Carol Keppler combines intuition, kinesiology and modern technology to locate and imprint unique frequencies into water formulas that neutralize negatives to support health and well-being at the body's vibrational level.
